

Grandma Betty wishes to go to the park to feed the ducks, but there is one problem, she thinks that it will be too busy.

Grandma Betty has an idea though, she remembered that she downloaded an app that tells her how busy a public place will be.

The app tells her that it actually is not that busy

Because of this, she knows that when she gets to the park she will be able to have a good time feeding the ducks

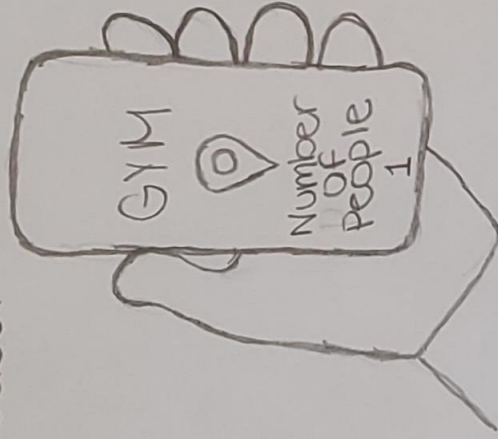

Finally, the app prompts her with the question of how busy the park is to help better the accuracy of the app.

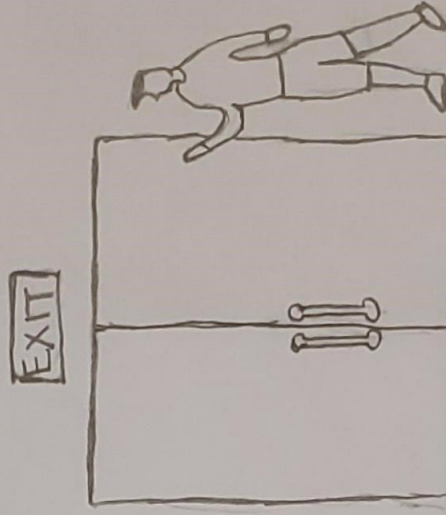

Josh goes to the gym to test the app before making it public.

Josh opens the app to check in and make sure that a person is added.

Josh leaves the gym to check the app functionality at another location.

Josh gets to Taco Bell and checks if the number of people at the gym is zero and checks into the app.

Josh goes home as the app works as intended.
